CITY OF BUFFALO, N.Y., *et al.*,

Defendants.

No. 1:18-cv-00719-CCR

**CERTIFICATION OF DOMESTIC RECORDS
OF REGULARLY CONDUCTED ACTIVITY**

1. My name is Maxwell Palmer. I am over 18 years of age and competent to make this certification. The facts stated in this certification are within my personal knowledge.

2. I am an Associate Professor of Political Science at Boston University and co-principal investigator of the Menino Survey of Mayors.

3. I am a custodian of records for Boston University's Menino Survey of Mayors. The Menino Survey of Mayors has been conducted annually since 2014.

4. Attached as Exhibit 1 is a true and correct copy of a record of Mayor Byron Brown's responses to the 2020 Menino Survey of Mayors. This record was made at or near the time of the survey by someone with knowledge of Mayor Brown's responses. Specifically, Mayor Brown's responses were recorded by an interviewer for the 2020 Menino Survey of Mayors. The interviewer was instructed to record the Mayor's responses as accurately as possible. This record was kept in the course of a regularly conducted activity—specifically, the Menino Survey of Mayors. The record was made as part of the regular practice of that activity.

5. Attached as Exhibit 2 is a true and correct copy of a record of the codebook used in connection with the 2020 Menino Survey of Mayors. This record was made at or near the time of the survey by someone with knowledge of the survey coding. The record was kept in the course of a regularly conducted activity—specifically, the Menino Survey of Mayors. The record was made as part of the regular practice of that activity.

6. Exhibit 2 states each of the questions asked in the 2020 Menino Survey of Mayors, and corresponds to the responses in Exhibit 1. For example, the row labelled “Q2” in Exhibit 2 states the question that corresponds to the response under the column “Q2” in Exhibit 1.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 23, 2023

Maxwell Palmer

Buffalo	NY	<p>Following the killing of George Floyd, policing will change in our city. Right after the event, we rolled out the Buffalo Reform Agenda to make policing more equitable and respond to community concerns. Additionally, COVID put an emphasis on health disparities that will change our public health system--one that looks at Black and Brown communities and recognizes vulnerabilities and diseases that are a result of various disparities. Will have broader impact in community and country and lead to some systemic changes. Our downtown will also change as businesses realize that working from home works and that they can reduce their downtown office footprint. Finally, this year will impact workers on the lowest rung of the ladders--especially those vulnerable to COVID-19; some jobs may be lost forever. Will force us to think about new and inventive ways to help those in need--and the federal government will need to get involved. The fiscal impacts will last for several years, unless the feds step in and help municipalities and states.</p>	Somewhat disagree	Strongly agree

Depends on what resources and reallocations and the capacity those departments/orgs to deliver services. City has bifurcated system where county is responsible for delivery of social services--and that governing body is largely suburban and white.	Q16: "There's a generational divide: older African Americans more likely to trust police; the younger generation does not trust the police." Answer would be different depending on the group. Q17: "Strongly agree. Created a Buffalo Police Department 21st century initiative, focused on attracting diverse candidates. The last police exam we held, we had more minorities taking the exam than non-minorities." Q18: "Disagree that it caused more harm than good, but there were some consequences. Protests cost the community over \$1 million."	Tried to be voice of calm and let all residents, protesters, and others know that we were listening. 	<p>Confidentiality & Consent</p> <p>Thank you for agreeing to participate in the Menino Survey of Mayors project. We look forward to hearing your perspectives about leading a modern American city. We also hope the project's results will be interesting and helpful to you. Because your time is valuable, the survey comprises short and mostly closed-ended questions. The survey will allow you to skip questions if you feel they will take too long to answer or if you do not feel you have much to say about the issue. Thank you in advance for your thoughtful participation!</p> <p>The purpose of this research is to see how mayors view the challenges confronting cities and how they do their jobs. It is also designed to produce data that is valuable and interesting to mayors and other leaders. The survey includes questions on pertinent topics such as Covid-19, policing, and greenspace among others. Participation is completely voluntary, and participants can stop the survey at any time.</p> <p>The risks of participation will be minimal. Your participation and your responses will be kept confidential and all analysis will be aggregate so that individual responses cannot be identified. There is a risk of loss of privacy in the event of an unexpected data breach, but to minimize this risk, your responses are kept confidential and only accessed through password protected computers. They are only used by academics for research purposes. There are no direct benefits to you participating in this study, however, you will be contributing to a report that provides insights to mayors and others interested in city policy and leadership and potentially being asked thought provoking questions about your work.</p> <p>Approximately 20-30 minutes will be needed to complete the survey, but the length will depend on how much information you provide on the few open ended questions. We are not expecting more than a few words on each. Please contact Professor Glick at 617.358.4645 or at dmgllick@bu.edu if you have any questions.</p> <p>Boston University requires all university research dealing with people to conform to the high ethical standards of the University.
